

## FluoMini Optical CF-sensor Specifications (PC version)

Measuring range	5 decades	Connectivity	USB, M5 4-pole male
Temperature range	0 to + 50 °C	Output signal	USB serial interface port
Detection limit	0.1 ppb	Dimensions (mm)	L 103 * W 57.5 * H 22
Resolution Temperature	0.1 °C	Weight	131 g
Response time (T90)	< 2 seconds	Housing material	Aluminium, with ABS covers
Calibration	1 point spectrophotometric	Protection class	IP54
		Optical fibre length	1.0m
